

5TH WHEELER

A NEW GENERATION OF TOURING

The Sunliner Northshore series of 5th Wheelers brings the Sunliner standard to this alternative concept in luxury touring. A 5th Wheeler is a happy marriage between the stability of a motorhome and the convenience of having a separate tow vehicle offered by caravanning.

TOWING YOUR 5TH WHEELER

A 5th Wheeler is built to extend over the back of the tow vehicle (commonly a ute or light commercial truck) and sits on a horizontal plate on the tray back.

The 5th wheel usually sits in the centre of the tray back directly over the rear axles - this provides the support for the RV. Some coupling devices are designed so that they can be removed from the tray when the vehicle is not being used to tow.

1. The bed in the 5th Wheeler sits in front elevated section 2. The benefit of a 5th wheeler is the ability to unhitch the trailer and use the tow vehicle to explore. 3. N593 layout has a huge kitchen perfect for the traveling gourmet . 4. The N593 includes two recliner chairs to relax in style.
