ANNIVERSARY MODEL

To celebrate our 40th anniversary we have taken forty years of knowledge and combined it with the latest technology to create Australia's most exciting new motorhome, with a limited release of only 40 units. This Motorhome is destined to be a classic and is a true reflection of the Sunliner values of design, innovation, responsiveness and quality.

We have never been afraid of trying bold things and with this model we are again pushing new boundaries. We have created an interior design that is a fusion of European curves and a cutting edge contemporary high gloss finish. This vehicle is the pinnacle of our design and it makes a heck of a statement!

Incorporating both a slide out wall and a drop down bed has created a compact motorhome that is expansive and airy, forming a living space that is relaxing and welcoming.

The exterior of this Motorhome is sleek, from its fibreglass moulded bodywork down to its colour scheme. Subtle features such as the external LED feature lights, the entry courtesy lights, side entry steps and other external highlights give this unit a distinct look.
