

HOUSTON

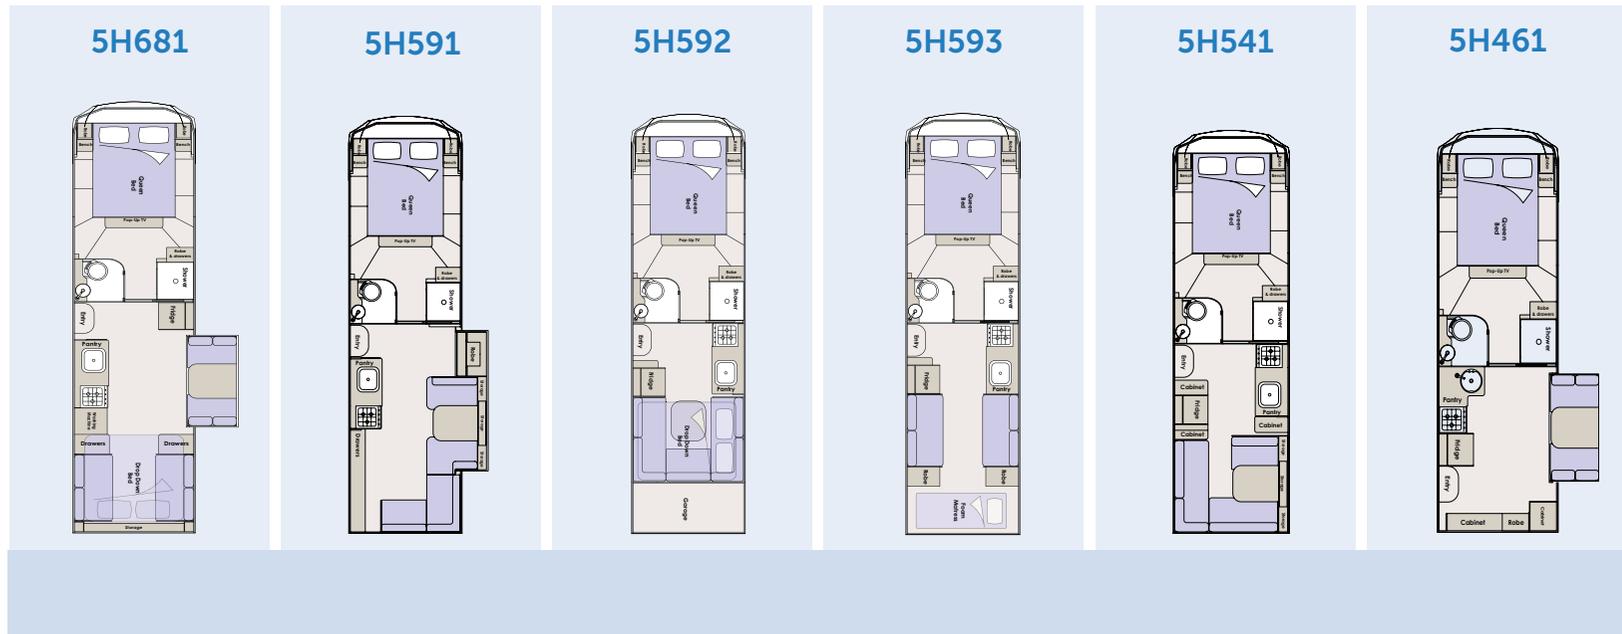

A NEW GENERATION OF TOURING

A 5th Wheeler is a happy union between the stability on the road of a motorhome and the convenience of having a separate tow vehicle offered by caravanning.

FEATURES

- The Ultimate Combination-** Built to extend over the back of the tow vehicle, commonly a ute, and sits on a horizontal plate "the 5th wheel" on the tray back. This gives you flexibility to unhook and explore without compromising the towing experience.
- Designed for Australian & New Zealand conditions-** The Houston is light enough to be towed by a range of locally available utes, including the Ford Ranger, Nissan Navara, Toyota Hilux and Holden Colorado.
- Sleep Easy-** With a full bedroom including queen size bed, large panoramic windows & large pop up TV/privacy screen.
