

Recommendations

Sunliner Community - Join the Sunliner Community through our website and through our Facebook page.

Shake Down Trip - Take a "shake down" trip in the first month of ownership, to get to know your RV before a big trip. This is an opportunity to ensure that you have remembered to pack all of items essentials to your style of travel. We recommend making the trip a local one, remaining close to home so that your Selling Dealer can attend to any issues that may arise. Check out the Sunliner Community Website for more tips.

Checklist - There can be a lot to remember, especially when you are first setting out, so write yourself a checklists for;

- Preparing for a trip
- Setting up at a campsite
- Packing up and leaving a campsite

Maintenance - Regularly maintain your vehicle with scheduled servicing and general cleaning and maintenance.

Reading - Read and become familiar with your Sunliner Users Guide and Customer Warranty book.

Your Safety - Become aware of the cautions and warnings noted in your RV and in the owner's manual.

Dimensions - Know your weights and heights. Be mindful of these when loading your RV.

Equipment - There is some of the basic equipment that is essential for using your RV safely and comfortably:

1. 10m food grade fresh water hose with connections.
2. Cassette toilet chemicals.
3. 15 Amp power lead 15m long
4. 10m a gray water waste hose
5. An "in date" and working Fire Extinguisher.
