

Scheduled Service

RV Home

Scheduled Services have been designed to monitor the units overall use, maintain serviceable items, and to ensure that any potential issues are addressed in a timely manner.

In the rear of the Sunliner Customer Warranty & Service Guide, a full list of serviceable items is listed.

All Sunliner units are to be periodically serviced at the following intervals after ownership:

- 3 Months
- 12 Months
- 18 Months
- 24 Months

Your Sunliner Selling Dealer is the primary contact in assisting Sunliner owners to organise a scheduled service, either at their dealership or at a location most convenient to you.

If your first 3 months service is carried out at your Selling Dealer it is complimentary. All other services are at a cost to the customer unless previously negotiated.

All scheduled services are a fixed price of \$165 plus gst* for a campervan and \$250 plus gst* for a motorhome of any series for the first two years of ownership.

Sunliner Scheduled Service is only relevant to the Sunliner 'home' component of the vehicle. This Scheduled Service does not have any relevance to the chassis component of the unit.

Please note: Sunliner Scheduled Services are NOT the same as Sunliner Warranty Service.

* Prices correct as at 1 July 2016

My first RV (Home) Service is due:
