

TWIST

Sunliner Motorhomes

The master of space creation

The Twist will amaze you with its generous light filled space and its extensive features all in a 25-foot motorhome package. A slide out living/ dining space combined with a fixed East-West bed and a spectacular dry en-suite complete this stunning motorhome.

Elegance and practicality in a beautiful partnership

The Twist has an open and light design that creates a relaxing interior so you can have the adventure that is uniquely yours.

Are you a travelling gourmet and don't want to compromise? The Twist boasts a 2 door/175 ltr fridge, a cooker with oven and stove top with 2 gas and 1 electric hob, microwave, a sink with draining board and lots of storage.

Do you need a travelling office space? The Twists layout with the slide-out dinette area creates plenty of space to work in comfort.

When the day is done, a comfortable bed with innerspring mattress and stunning dry en-suite make this motorhome a haven you may never want to leave.

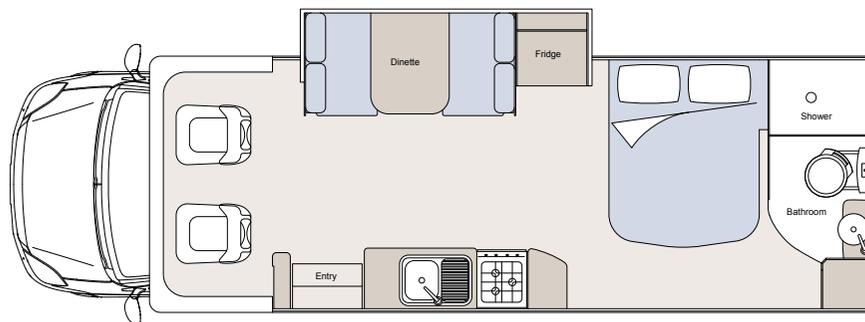

Chassis & Layout

The IVECO Daily, is the light commercial vehicle range of the IVECO Trucks line up. The Daily drives like a car, but has the strength you get from a solid steel truck chassis. It is robust, reliable, flexible, comfortable, safe and environmentally friendly.

Iveco Daily 50C17

No one knows what works for you, better than you

You know what works for you, that is why at Sunliner we think you also know what you are looking for in a recreational vehicle (RV). Our philosophy is to listen and work with you to create your dream vehicle.

We understand that you want your new RV to feel like a home and we don't believe you should have to compromise.

Our vehicles do not come from an offshore assembly line, with a single mould for everyone. Each Sunliner RV is built in Australia by our skilled team who are excited to manufacture recreational vehicles tailored to your needs.

Sunliner is proud to be an Australian owned family business. We have been manufacturing outstanding motorhomes for over 40 years. It is our innovation and our attention to detail that sets Sunliner apart as Australia's premium brand of Recreational Vehicles.

We look forward to assisting you to personalise your journey.

What sets us apart

Rear to Tow, Front to Go.

Sunliner offer more layouts on a greater variety of chassis than any other.

Quality

Concealed spring assisted adjustable hinges are used for smoother assisted opening.

It's the things you don't see that counts.

Furniture is sealed around the floor so if you drop the milk it won't leach into the furniture.

Locked tight, made right.

Walls are rebated and interlocked for a stronger construction with more support.

Steel Sub Chassis

Stronger than a panel floor allows a strong foundation with less movement in the vehicle body. More secure mounting for walls, tanks & bins.

It's what you don't see that counts.

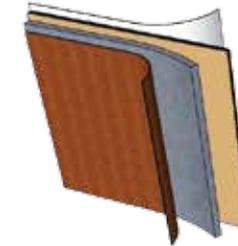

All Fibreglass fairings are neatly screwed & glued in a way that they can't be seen; giving a neater appearance and assists in a cleaner unit.

No Frame, More Gain

The innovative ThermoTough Wall, allows the unit to be built without a rigid frame. Mounting can be made at any point internally or externally directly into the seamless 12mm core.

Floor

One piece floor has no joins and is fully sealed underneath. Internal floor coverings are high quality and insulated.

ThermoTough™ Wall

The Toughest Walls on the Market

Sunliner's ThermoTough wall is a revolutionary design encompassing strength, durability and weight reducing properties.

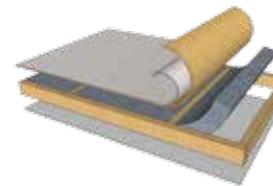

- Lightweight European technology.
- One piece wall. No joins, No gaps equals greater strength.
- Popular cross ply/Duplo Foam core provides extremely strong panel with a high impact rating.
- Most repairs can be localised without replacing whole wall.
- All materials used in the process have a similar expansion rates.
- Walls can be screwed into at any point. No studs or fixing points necessary.
- Walls R rating is equivalent to those found in extreme alpine areas.

DuraRoof™

Strong enough to Party On

Sunliner's DuraRoof has been precision engineered to provide superior structural strength.

- Fully insulated bonded core.
- Reinforced timber structure combined with compressed Duplo Foam.
